WELCOME TO CERIDIAN

Globally Ceridian provides HR services for more than 25 million employees on behalf of 110,000 businesses. While in the UK, 6,000 customers of all sizes, across a wide range of sectors are benefiting from our HR services. Our clients include ASDA, Lloyds TSB, Somerfield and GlaxoSmithKline.

Founded originally as Centrefile 40 years ago, we take pride in the reputation we have built up as the UK's leading provider of payroll services. Since becoming part of the Ceridian Corporation in 1995, we have continued to expand into other HR solutions while retaining our core focus on customer service and satisfaction.

Our mission is to add value to HR by delivering HR services and solutions that maximise the value of your people. Everything we do enables HR to make a real commercial impact and improve our clients' business performance.

Our people form the heart of our operation. This is why we only employ the most dedicated and best-qualified service delivery people in the industry. The experience and expertise of our 850 staff in the UK and our offshore centre ensures that your employees consistently receive exceptional service.

Ceridian complies with Sarbanes-Oxley standards and, having commissioned a leading independent services auditor to test our controls, we are able to provide a SAS-70 Type II report as required.

ADDING VALUE TO HR

"When I joined Ceridian, I was immediately impressed by the calibre of our people and their dedication to our customers. Developing and retaining our people to ensure we remain the best choice for customer service is top of my agenda."

Doug Sawers,
Managing Director, Ceridian

PUTTING PEOPLE FIRST MEANS BEING FIRST

At Ceridian, we believe that HR teams can make a massive contribution to the success of your organisation. Up to 80% of your company's wealth may be invested in your staff. This is why as the custodians of your most important asset, an effective HR team can unlock the unique competitive advantage that your people represent.

By delivering services and technology that make HR more efficient, we empower your people to develop and implement initiatives that maximise this value. Our HR service capability includes employee administration, payroll, expenses management, benefits administration, talent acquisition, performance management and employee assistance & wellness programmes.

We are committed to using the best, cutting-edge technology to drive HR service-delivery. We continually evaluate new innovations and invest in new development so that you benefit from the time and cost savings that this technology can deliver.

Our expert consultants and account managers help you understand how you can best use our services to meet your business goals, whether that means fully-outsourced HR or optimising technology to power your in-house teams.

The end result is cost-effective HR that delivers a better service to employees and increases their engagement and productivity.

INNOVATIVE HR

We invest in developing new HR services and solutions designed to help you achieve new levels of efficiency and effectiveness. Our capability enables you to deliver the best employee service and get the most from your people.

HR AT THE HEART OF YOUR SUCCESS
